PLATE HEAT EXCHANGERS

OUR AIM YOUR SUCCESS

At **Alfawest** we offer the best value for money for your equipment and industrial processes in separation, heat transfer and fluids treatment.

We know that our own success depends on the success of our clients, therefore, our aim simply is: YOUR SUCCESS.

OUR BACKUP 30 YEARS OF EXPERIENCE

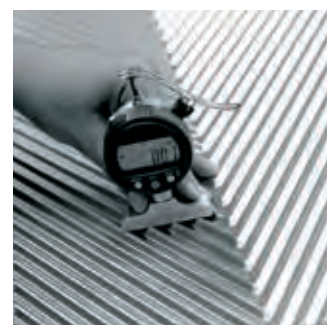

At **Alfawest** we have been accumulating knowledge and expertise for almost 30 years. We have catered to different markets and industries located in many countries, offering them engineering solutions, supplying a wide range of spare parts and services for new and refurbished Centrifuges, Decanters and Plate Heat Exchangers. We operate in diverse industries including edible oil, brewery, distilleries, power, fruit, dairy, marine, fish, meat, oil & gas, petrochemical, and sugar mills, as well as many others, and in diverse processes for liquid effluent treatment (waste water, sludge recovery, etc.)

Our equipment, systems, technical service and support, are geared to improve our clients' equipment and process performance to achieve best value for money.

OUR ALLIANCE WITH WORLD LEADERS IN THE FIELD

We have created an alliance with world leaders in the field, committed to quality in manufacturing **PLATES & GASKETS FOR PLATE HEAT EXCHANGERS**, assuring our clients full traceability and quality control of the whole manufacturing process, ensuring the exchanger equipment will operate to its maximum efficiency.

COMMITTED TO QUALITY

When choosing among our wide range of gaskets and plates, you can rest assured that any of them will work with the rest of the equipment components without any problems, attaining the watertightness or seal that the original design requires.

All marketed gasket and plates for heat exchangers are 9.001 version 2.000 Quality Certified for all manufacturing processes and up to date with technical advances, legislation and international standards.

Our decades of experience and personalised solutions make Alfawest the easy and safe pathway to the best performance at lower cost.
